

High Visible

LP106 Cross Line Dot Laser

Features:

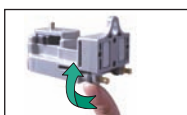

- Self-Leveling with magnetic pendulum system.
- 5 beams & 1 cross line (cross over the ceiling), laser lines have a large fan angle (150°), each dot is at 90°.
- High visibility laser line and beams, high stability.
- Laser lines & laser dots can be combined or independent for operation.
- In /Outdoor function for option, (working with laser detector).
- Laser line or laser dots blink if the unit is out of the self-leveling range.
- Center locking system to lock the pendulum while in transportation to avoid the vibration (patent).
- Compact size design for easy carrying.
- Multi-function wall mount & rotating base to extend application.

Specifications:

Lasers:	5 dots, 1V, 1H,
Horizontal line accuracy:	≤ ± 3mm /10m
Vertical line accuracy:	≤ ± 3mm /10m
Up beam accuracy:	≤ 4mm /10m
Down beam accuracy:	≤ 6mm /10m
Left right and front dots leveling accuracy:	≤ 4mm /10m
Self-leveling range:	4°
Working range :	Dot : ≤ 30m
	Line : ≤ 10m; > 25m with Laser detector
Diode power:	635nm±5nm, Class 2M, EN60825-1
Working time:	≥ 7hs
Dimensions: (LxWxH)	116x69x112mm
Standard outfit: main unit, soft bag, laser detector with clamp, laser glasses, mini tripod, rotating head, target plate, instruction manual, plastic case.	

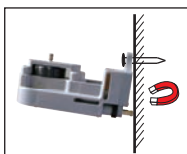

Locking system

Fine Adjusting Screw

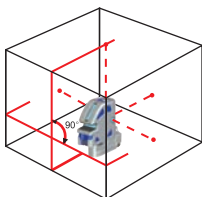

Operation keypad

Hook & magnetic

LET-4 tripod

LVH100 Detector
LA-1 Quick clamp
