

high visibility

LP804 Multi Line Laser

Features:

- Equipped with magnetic damping system for quick self-leveling.
 - If the unit exceed the self-leveling range, the laser Line will be shut off with warning signal.
 - The unit will emit one horizontal, 4 vertical line with Plumb dot, the 4 vertical line will be acrossed on the Ceiling at 90°
 - With horizontal rotating mechanism and fine adjustment Knob for convenient working.
 - With indoors/outdoors switch function, laser detector can be Used for outdoors operation.
 - Remote control can be optioned to control most function On the unit.
 - Standard outfit: LP804 main unit, laser glasses, magnetic target, Batteries, plastic case.
- Optional accessories: LVH800 laser detector with clamp, RL800 Remote control.

Technical Specifications:

Main Unit LP804

Accuracy:	±1mm/5m
Self leveling range:	±3°
Working range:	10m without detector, 30m with detector
Laser source:	7mw laser diode
Wave length:	635nm±5nm
Width of laser:	1.5mm/5m
Output power:	≤1mW
Laser safety class:	Class 2M
Working distance of remote control:	25m-30m
Power supply:	4.5V(3xAA size batteries)
Operating time:	10 hours for continuous operation
Range of operating temperature:	- 10°C – +50°C
Mounting thread:	5/8"X11, ISO standard
Size:	158X178X245(mm)
Weight:	2.2kg

Remote Control RL800

Remote control form:	Infrared
Remote control distance:	25m-30m
Function:	Control the transmission of one horizontal line and four vertical lines and indoors/outdoors mode
