

NEW

SP80 Long Range Self-Leveling Laser Level

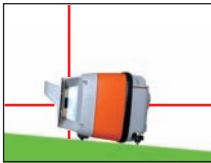

Features:

- Equipped with high quality and accurate 3 axis electronic sensor.
- Extremely quick automatic self-leveling for horizontal and vertical working with upward and downward plumb dot.
- Auto /Manual mode for option, Simple slope function can be set up under Manual mode..
- With self-checking and self-calibration function for user's convenience.
- Special design for long working distance upto 400m radius.
- Tilt alert protections.

Specifications:

Automatic leveling range:	±5.7°
Accuracy(horizontal):	±10"
Vertical:	±20"
Operating range with detector:	0.5m~>400m (Radius)
Rotating(without detector):	approx.20m(depending on room illumination)
Spotting :	approx.50m
Scanning (without detector):	approx.30m
Remote control range:	30m (with infra-red)
Rotation speed:	0/5/300/600rpm
Scanning-function:	10°/30°/60°
Operating time:	20h with rechargeable batteries
Working range:	-10°C~+40°C
Laser diode:	635nm
Laser class:	Class 3R
Weight:	2.5kg

Standard outfit:main unit,rechargeable batteries with charger,laser detector with clamp,remote control,target plate,instruction manual,plastic case.

Rechargeable batteries

4xAA batteries

RL50 Remote control

LS-6 Detector
LA-6Q Quick clamp
