TC1-55B

TC2-55A

TC2-55B

TC2 Telescopic Leveling Staff

- Strong aluminum section.
- Front side E reading or 5mm reading.
- Back side mm reading start with zero at the bottom.
- Available in 3m, 4m, 5m, including slit to put circular bubble.
- Base plate made in stainless steel.
- With carry bag

Item No.: TC2-33A: 3mx3section E reading
 TC2-33B: 3mx3 section 5mm reading
 TC2-44A: 4mx4section E reading
 TC2-44B: 4mx4section 5mm reading
 TC2-55A: 5mx5section E reading
 TC2-55B: 5mx5section 5mm reading

BG-2

BG-33

BG Ranging Pole

- Telescopic precision steel tube with twist lock.
- 20cm red/white banded color plastic coated painting.
- Available in 2m, 3m. With carry bag.

Item No.: BG-2 2mx2section
 BG-32 3mx2section
 BG-33 3mx3section

RL15 Rod Level

- Aluminum body with metal clip to hold it in place on the pole.
- Glass circular vial with three adjusting screws.

RL20 Rod Level

- Robust aluminum body.
- Glass circular vial with three bottom mounted adjusting screws.

DJ-2 Optical Square

- Double penta prism for fast right angle sighting in either direction.
- Protective metal cover rotates to protect prism.
- Comes with a leather case.

Hand Level

- For preliminary survey and simple distance estimation.
- Square aluminum body and easy to read vial.
- Comes with blister packing.

Abney Level

- Graduated 0 to $\pm 90^\circ$, 0 to $\pm 100\%$ on a arc. Vernier reads to 10'.
- Square aluminum body and arc.
- Comes with blister packing.

Brass Plumb Bobs

- Precision machined for perfect balance.
- Includes a hardened steel point.
- Steel screw caps allows storage for point.
- Available in 12OZ, 14OZ, 16OZ, 18OZ, 24OZ, 32OZ.
- Comes with blister packing.

Brunton Type Compass

- For preliminary survey, topography, geological field.
- Comes with a leather case.

Cable with Adapter

- Communication cable with adapter for Total station
- Compatible with different brand.
